

NDIMOFOR ARETAS

Full-Stack Software Developer

(i) About Me

I am an experienced fullstack software developer who enjoys developing solutions with ReactJS, TypeScript, NextJS, NodeJS, amongst other Frameworks.

My strong interpersonal skills have enabled me to work with local and international teams to implement projects and training seminars from ideation to completion.

Because of curiosity and my belief in the power of continuous learning, I dedicate time to stay current and update my skills as required.

Real World Projects:

- https://www.harmonicawithguitar.com/
- https://www.educloud.academy/
- https://bomokohub.com/

- https://ndimoforaretas.github.io/

Professional Experience

Digital Career Institute (DCI) | German Speaking Web Dev Teacher

Jan 2023 - Present

Key Responsibilities:

- Leading small teams in full-stack MERN projects
- Teaching MERN stack web development skills to beginners and career changers
- · Training teammates in agile project management

Eductoud Academy | Freelance Fullstack Developer (AWS)

2019 - 2022

Key responsibilities:

- Building Microservices with AWS S3, DynamoDB and Amplify
- Building reusable components with ReactJS,
- Training and upskilling teammates

Project Link:

https://www.educloud.academy/

Contact

- ndimaret@gmail.com
- +49 174 647 7158
- Kaiserplatz 1b, 52349 Düren.
- Ndimofor Aretas
- https://ndimoforaretas.github.io/portfolio

Tech Stack

- HTML, CSS, Vanilla-JavaScript
- ReactJS, NextJS, TypeScript, AngularJS.
- MongoDB, NodeJS, Postgres, MySQL
- Git, GitHub und GitHub-Aktionen
- TailwindCSS, Bootstrap
- Python, C#, DotNET 8.

Misc Stack

- Markdown
- Jekyll

- Autodidact, desciplined, motivated
- Creative, Communicative, Team-player
- Goal-oriented, reliable, adaptable
- Multi-tasking, organized, analytic

🖟 Hard Skills

- Full-stack web development.
- SCRUM & Agile Methodologies
- Bootcamp and Workshop facilitation
- Instructional design and delivery.

Languages

- English
- French

Code Academy Alumni Zero To Mastery Academy (ZTM) - Toronto CA, USA Modern responsive and accessible web design MERN Web development tools and frameworks like ReactJS and NextJS NoSQL database systems like MongoDB and Firebase Version control with Git and GitHub PWAS, Web performance, and maintenance Testing with Jest, Enzyme, and Snapshot testing Bachelor Studies University of Bamenda (Uba) - Cameroon Bachelor's degree in Minning and Environmental Science Computer Science Diploma Microman Computer Institute - Cameroon Mathematical Techniques for Computer Science Fundamentals of Computation Fundamentals of Computer Engineering Algorithm and Data Structures MySQL and relational database systems Volunteering Community Dev-Support Black In Tech Berlin Automation of internal tasks in Google Workspace with AppScript Development and maintenance of the community website Automation of the registration process for members Head of Computer Science Division Humanitarian Action Cameroon Leading the training of young girls, vulnerable widows and orphans in Digital Literacy skills.
